**RESTRICTED USE PESTICIDE
DUE TO GROUND AND SURFACE WATER CONCERNS**

For retail sale to and use only by certified applicators or persons under their direct supervision, and only for those uses covered by the certified applicator's certification.

This product is a restricted use herbicide due to ground and surface water concerns. Users must read and follow all precautionary statements and instructions for use in order to minimize potential for atrazine to reach ground and surface water.

**FIFRA Sec. 24(c)
Special Local Need Label**

G-Max Lite™ Herbicide

**Establish Lite™ herbicide
Propel™ ATZ Lite herbicide**

For Distribution and Use Only in the State of South Dakota

Environmental Precautions and Soil Type Restrictions

This Special Local Need label also applies to the following Supplemental Distributor products:

**Establish Lite™ herbicide, EPA Reg. No. 7969-200-55467
Propel™ ATZ Lite herbicide, EPA Reg. No. 7969-200-32938**

EPA Reg. No. 7969-200

It is a violation of federal law to use this product in a manner inconsistent with its labeling. **DO NOT** apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

Directions for Use

Refer to the **G-Max Lite™ herbicide** main label, EPA Reg. No. 7969-200, for complete directions for use and all applicable restrictions and precautions. User must have the full **G-Max Lite** container label when using this supplemental labeling at the time of pesticide application.

Environmental Precautions

Where groundwater is near the surface and the soil is coarse and permeable, agricultural chemicals have potential to contaminate the groundwater. The following restrictions have been developed to protect drinking water supplies.

Point source contamination:

DO NOT transfer, clean, wash, load, unload, rinse, refill, mix, or empty containers or equipment containing **G-Max Lite** or any other pesticide product within 150 feet of any well, sink holes, natural or impounded lakes and reservoirs, perennial or intermittent streams and rivers, or wetlands unless it is done so over a South Dakota Department of

EPA SLN: SD-080001

Agriculture approved operational area containment.

Any spilled material must be immediately recovered. Discharges in excess of 25 pounds active ingredient must be reported to the department. Recovered material must be properly stored and handled until proper disposal or use has occurred. The owner or operator shall provide written documentation to the department describing the cause of the discharge, recovery, and sampling procedures, analysis reports, and disposition of the recovered materials within 30 days following the date the discharge occurred.

Movement dissolved in runoff or through soil:

DO NOT apply under conditions which favor runoff. **DO NOT** apply to impervious substrates such as paved or highly compacted surfaces or frozen soils. Runoff is minimized through practices that also reduce soil erosion. Slope, grass buffer/filter strips, soil types, tillage practices and drainage conditions must all be considered to prevent contamination of surface water through runoff and erosion. Groundwater contamination may occur in areas where soils are permeable or coarse and groundwater is near the surface. To minimize the possibility of groundwater contamination, carefully follow application rate recommendations as affected by soil type in the general information section of this label.

Use Restrictions Due to Soil Type

DO NOT apply **G-Max Lite** if the following conditions exist:

- The water table is 30 feet or less below the ground surface, **and** the soil surface (0-6 inches), has an organic matter content of 3% or less.
- The water table depth **or** soil texture **or** percent organic matter is unknown.
- Vulnerable soils are present.

Vulnerable (restricted) soils are those soils where a sand texture occurs at any depth in the soil profile. Vulnerable (restricted) soils also include those soils classified as sand (using the USDA system of textural classification of soil), which may be modified with terms including (but not limited to) bouldery, cobbly, stoney, gravelly, coarse, medium, fine, or very fine.

If a field contains several soils, one of which is included in the above restriction, **DO NOT** apply **G-Max Lite™ herbicide**.

Conditions of Sale and Warranty

The **Directions For Use** of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the **Directions For Use**, subject to the inherent risks, referred to above.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BUYER'S EXCLUSIVE REMEDY AND BASF'S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, EXEMPLARY, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.

BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing **Conditions of Sale and Warranty** which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
